PROFILE

Motivated Full-Stack Developer who builds user-friendly websites, dashboards, mobile apps and full systems. I work comfortably with Flutter, PHP, WordPress, WooCommerce and SQL. I focus on clean code, speed, and real-time features. I work directly with clients, understand what they want, and deliver full projects from start to finish including hosting, SSL, backups, deployment and training.

CORE SKILLS

Technical: HTML, CSS, JavaScript, PHP, SQL, Flutter/Dart, MySQL, REST APIs, WordPress/WooCommerce, Responsive UI, Wireframing, Prototyping

Tools: Git, Debugging Tools, Firebase/Firestore, Hostinger/DNS/SSL, Bluetooth ESC/POS printing

Methods: Agile, Scrum, Kanban, Code Reviews, Documentation

Soft Skills: Problem-solving, Adaptability, Teamwork, Communication, User-Centric Thinking

Languages: English, Gujarati, Hindi, Urdu

EXPERIENCE

Founder & Full-Stack Developer — MiyANJI Tech Solution

Bolton, UK · **Jul 2025 – Present**

I run my own digital agency where I build custom websites, dashboards and mobile apps for SMEs including takeaways, EV installers, insurance companies, cosmetic wholesalers and marketing agencies.

What I do:

- Full project delivery (design → build → hosting → deployment → maintenance)
- WordPress/WooCommerce development with custom logic
- Flutter app development with REST API integrations
- VAT logic (zero-rated detection, UK compliant)

Key Projects I Completed:

- **IC Insurance Dashboard (Web App)**
Full insurance client dashboard with tabs, fleet status, vehicles panel,

adjustments system, pagination, charts, modal forms, role-based access and a clean admin interface.

- **RTR Recycle Dashboard**

Business dashboard for recycling workflows with filters, live data, admin tools, user management and a clean dark-theme design.

- **NexVape Website**

Vape e-commerce website with product cards, sliders, clean UI, aligned product boxes, and optimised mobile layout.

- **Haven Flooring Website & Haven POS System (Flutter)**

Full WordPress site with transparent headers, custom Elementor layout, collection pages (Carpet, Laminate, LVT, Engineered Wood), shop filters, hero sections and responsive grid design. Custom POS system for Haven Flooring with daily jobs, product lists, invoice printouts, customer data, stock tracking and fast workflow for the flooring industry.

- **Grill Corner Ecosystem**

WooCommerce site with PPOM add-ons (sizes, toppings, crusts), VAT logic, custom UI; Flutter Order App with REST API, Bluetooth printing, VAT reporting, address lookup; Custom “GC Mobile Orders” plugin for secure endpoints.

- **Vestra / MSM Cosmetic**

Wholesale catalog websites with CSV imports, “request price” mode and WhatsApp funnels.

- **IgniteEVCharge**

Lead-gen website with quote forms and 3D/animated UI.

- **PACT Northwest**

Business website with custom hero layout, forms and simple reporting tool.

- **Infinity Marketing & Sizzle Media**

Agency websites with clean typography and animation.

OTHER WORK EXPERIENCE

Gate Line Staff — Carlisle Support Services

Manchester · Aug 2023 – Present

- Assisted passengers, handled travel queries and smart-card top-ups.
- Reduced fare evasion with inspections and compliance checks.

E-commerce Support Agent — Gaming Xpert Ltd

Remote · Jul 2022 – Jul 2023

- Managed Amazon/eBay orders, shipments and A-to-Z cases.
- Resolved customer issues and ensured on-time delivery.
